iOS 11.4.1 beta Release Notes

About iOS 11.4.1 beta

The iOS 11.4 SDK provides support for developing iOS apps for iPhone, iPad, or iPod Touch devices running iOS 11.4.1. The SDK comes bundled with Xcode 9.4 available from the Apple Developer Program download page.

For information on the compatibility requirements for Xcode 9.4, see the Release Notes on the Xcode download page.

Bug Reporting

For issues not mentioned in Notes and Known Issues, file bugs through the Apple Developer website https://developer.apple.com/bug-reporting/.

When filing a bug, please include the full version number in the bug title and in the description. This looks like "11.4.1 (*15Gxxxxx*)." You can find the full version number in Settings > General > About > Version.

Technical Support and Learning Resources

Apple provides the following resources to support your development:

- Developer documentation is available both on https://developer.apple.com/documentation and from Xcode by choosing Help > Developer Documentation.

- Apple Developer Forums. Participate in discussions about developing for Apple platforms and using developer tools.

- iOS 11.4 Developer Forum. Participate in discussions about developing for iOS 11 and issues with the SDK.

- iCloud for Developers. Find information about developing for iCloud.

- iOS homepage. Get high-level information about the latest release of iOS. Download current and beta iOS releases.

- For help with using Xcode, Simulator, or Instruments, choose Help > *app name* Help.
